# CINEMATIC VIDEO Package

Good pictures can speak a thousand words, and a cinematic video will be a perfect companion for them.

The trembling voice of your partner as she/he said her/his vow, the hilarious joke made by your best friend, the soft music played on your first dance, those are moments that worth capturing and definitely worth remembering for years to come. Beside the photos, the video is probably the only thing that is left to remind you of your special day.

Analog to our photography style, our video carries the philosophy “spontaneous, intimate, graceful”. The team captures the emotion, spirit, and telling scenes of the day; We’re close to our subjects but remain discreet, and show them in a graceful way.
